Atriax is a leading provider of **Service-Disabled Veteran-Owned Small Business** in Hickory, NC.

Atriax Group of companies includes Atriax PLLC & Atriax Building Solutions. Our JVs include: Atriax/Zapata JV II and Atriax/DLR JV.

EXPERIENCE

For nearly 25 years, **Atriax** has worked with numerous federal, state, and local government agencies, and commercial entities to deliver exceptional architectural and engineering services. Co-founders, George Auten and Ed Henson, have incorporated the three core values of the US Air Force into their business: Integrity First; Service Before Self; and Excellence in All We Do. Integrity • Service • Excellence

Department Of Veterans Affairs

- Over 160 health care projects completed
- Recent Veterans Health Administration healthcare experience in NC, VA, SC, GA, AL, TN, KY, FL, LA, NJ, VT, KS, MO, IL, TX, PR, USVI
- Recent National Cemetery Administration experience in MO, PA, FL, AZ, TN, IL
- Facility renovations, correcting FCA deficiencies, new constructions, site development and grading, stormwater control, parking and roadways
- EHRM, mental health, specialized healthcare clinics

Other Federal Agencies:

- US Air National Guard
- USACE
- US Navy
- US Air Force
- Department of Homeland Security - FEMA
- Department of the Interior - National Park Service
- US Department of Agriculture - Forest Service

Atriax is actively managed by two retired US Air Force engineering officers with over 60 years combined experience at base, Major Air Command and HQ USAF-level with extensive building experience in the United States and internationally.

We earned the HIRE Vets Gold Medallion in 2022 and 2025 and the Platinum Medallion in 2023.

PAST PERFORMANCE

Atriax consistently receives Very Good to Exceptional performance ratings. The following are noteworthy CPARS official comments and referrals.

“The contractor’s key personnel and the entire design team were willing to work through numerous design changes due to continuously changing guidance. Modifications that were necessary were negotiated and fair and reasonable pricing was achieved. The contractor’s project manager did a good job keeping all team members on task and stayed on top of any issues that developed until they were resolved.”

- WJB Dorn VAMC Campus-Wide EHRM project

“Professional services provided generally exceed expectations. Architectural work demonstrates creative vision with a keen eye towards the needs as outlined by the VA. Functionality and workflow are key components that are revisited constantly as the design progresses....A genuine interest and commitment to providing the best possible product is demonstrated with each submission.”

- Alvin C. York VAMC Inpatient Ward Renovation

“ATRIAX, P.L.L.C., demonstrated a high understanding of the government’s requirement, what it takes to complete them in terms of required information, effort, and time, and conveyed those requirements clearly when discussing schedule, establishing phase milestones and setting deliverables. This helped to better define the end users’ requirement.”

Roads, Parking & Sidewalks

“Overall, the Contractor has performed very good or exceptional throughout the Project, a critical member of the PDT, greatly contributing to the successful execution of the project from cradle to grave.”

- USACE Wilmington District, Ft. Bragg Storage Design
